CAUSE OF MUCH SICKNESS

One reason so many people take cold during the winter months, according to a well-known authority, is the hot, dry atmosphere indoors, caused by imperfect heating. If we were as careful to keep the air in our rooms moist as we are to keep them warm, there would be less occasion for cough medicine than is now the case.

Of all the so-called minor ills of the body, there is none the neglect of which is so liable to result seriously as the "common cold." The cough irritates the mucous membrane of the throat, lungs and bronchial organs, leaving them sore and inviting attack from the countless germs of dread tuberculosis which infect the air we breathe.

A simple, inexpensive cough medicine can be made by mixing two ounces of pure Whisky, Shake well and take teaspoonful every four hours. It will break up a cold quickly and cure any cough that is curable. This formula is frequently prescribed and is highly recommended by the Leach Chemical Co., of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing through druggists.

DISCUSS NEW CELL HOUSE.

The necessity of the addition has been felt of late and it is announced that it will greatly alleviate overcrowded conditions.

There is Satisfaction in giving a Piano That Everyone Can Play

The piano has always been a favorite gift. The possibilities it represents for musical enjoyment are so great that it appeals strongly to the imagination. In a majority of cases where a piano of ordinary type is given, it proves an incomplete and unsatisfactory gift. The giver virtually says: "Here is a splendid musical instrument for those fortunate enough to be able to play it—I give it to you for what you can get from it, though I know that this will be a little enough."

Stuyvesant Pianola Piano

Here is a piano which from the moment it is received will begin to furnish enjoyment. No knowledge of music is required to play the PIANOLA PIANO. The instrument itself furnishes a perfect technique for all of the thousands of compositions in its repertory. The indispensable Metrostyle shows even the least musical performer how to put just the little touches of ritard and accelerando in the music that give it "feeling," while the Themodist, Graduated Accompaniment, etc., add the finish that makes the playing of the PIANOLA equal to that of skilled pianists. In every country of the world the PIANOLA Piano will be bought and given as a Christmas gift this year. It is the only Piano manufactured of which this is true. Does not such universal popularity suggest how welcome a Christmas gift the PIANOLA Piano would prove to your family?

CAUTION—All PIANOLA Pianos have the word "PIANOLA" plainly marked on them. They are on sale in Utah only at the Temple of Music. There are many imitations of the PIANOLA Piano. Not one of these, however, approaches the PIANOLA Piano, either in the scientific perfection of construction, or in special features of musical importance like the Metrostyle and Themodist.
